CHRIST HEALING THE SICK CHILD.
The Robertson Memorial Window in the Mother Hospital

SPECIAL TO READERS—Please note, this report is perforated, so that leaves can be separated and distributed to Public and Sabbath School Children.

In Memoriam

JOHN ROSS ROBERTSON

THE CHILDREN'S FRIEND

Died May 31st, 1918

RESOLUTION BY THE BOARD OF TRUSTEES:—We, the Trustees of the Hospital for Sick Children, desire to record our deep sense of the loss sustained by the Hospital in the death of our late Chairman, Mr. John Ross Robertson.

We remember with grateful appreciation his great ability, his ardent enthusiasm, his unbounded generosity, and especially his devoted and unremitting labors over a long course of years for the welfare of this Hospital, which is a monument to his deep and tender interest in suffering childhood. He endeared himself to the officers, the staff and the nurses of this Institution, and to the pupils of the Training School, and his memory will be cherished with respect and gratitude by his fellow-citizens and by the people of Canada.

The Hospital for Sick Children

ITS WORK AND ITS NEED

Founded forty-three years ago, upon trust in the generosity of the people of Ontario, this Hospital now yields place to none in the world, in conduct, in methods, and, above all, in results.

Never has it defaulted in dividends to the thousands who invest their benevolence here, and seek their return in the gratitude of restored and ruddy-cheeked childhood. **To carry on this healing work it must have funds.**

The Hospital's appeal comes to you this year more urgent than ever, and for these three reasons:—

The Hospital has no longer at its call the tireless energy, kindly counsel and constant benefactions of the great-hearted philanthropist who was Chairman of the Board from its early days till the day of his death.

This is the first annual appeal which has gone out not bearing the signature of John Ross Robertson, and without his personal touch vivifying all its lines. In assuming the great measure of work which he laid down, and in full realization of the loss the Hospital has sustained, the present trustees most earnestly invite the generous support of the public towards maintaining in unimpaired efficiency the work of Mercy to which he devoted such memorable service.

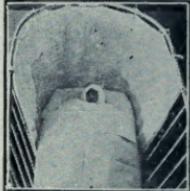

The war, too, has laid its heavy hand upon the Hospital's strong box. So high has soared the price of supplies that the average cost per day of nursing a child back to health has risen from \$2.34 in 1914 to \$3.21 $\frac{1}{4}$ in 1918. Rigid economy has been practised in every department; niggardliness would cause deterioration which thousands of dollars could not undo. The Hospital must not run down.

And to those citizens who have so nobly supported the Mother Charity came war-time appeals that, in justice to the general cause of humanity, could then not be denied. The Trustees of the Hospital for Sick Children, however, confidently hope that its particular Mission of Mercy will not be overlooked in your Christmas giving.

The welfare of the future is assured, not only by dealing a death-blow to Hun despotism, but also by freeing the on-coming generation from those two grim enemies, Disablement and Disease. Stricken childhood sees athwart its path the great "Massif" of Hospital indebtedness. Shell it with your dollars and mine it with your dimes! Then will there sound in your ears the singing of children as they march up the opened road to happiness and health.

Every \$

May Prove Itself a Dreadnought in the Hospital's Battle Against Death, a Flagship in the Fleet that Fights for Little Children.

THE HOSPITAL MUST CEASE FIGHTING IF YOU CEASE GIVING.
HOW CAN THE HOSPITAL CEASE FIGHTING WHEN THOUSANDS
OF LITTLE CHILDREN ARE CALLING FOR THE HELP YOUR
MONEY AND THE HOSPITAL'S MERCY CAN GIVE?

A WORD OF THANKS.

The Trustees desire to place on record their sincere thanks, not only to our present staff of physicians and surgeons, but to the many medical and surgical men of the City of Toronto, not on our staff, who have most generously come forward with their valuable and timely services, to help us out in the strenuous days that we have experienced in carrying on the work of the Hospital.

To meet the demand of the military institutions overseas the Hospital staff was drawn upon largely and an immense amount of work was thus thrown upon those members of the staff, and outside volunteers who were from time to time available. For the noble manner in which this work was accomplished in face of unusual difficulties, those medical men deserve the gratitude of the Province.

STEADY GROWTH FOR 43 YEARS, 1875-1918.

The progress of the Hospital may be shown in a single paragraph:—

Forty-three years ago (1875) there were 44 in-patients and 67 out-patients. Last year (1918) there were 5,048 in-patients and 39,583 out-patients. In 1875 the weekly average number of patients treated was 6. Last year, the daily, not weekly, average was 192. In 1875 there were 6 cots; in 1918 there were 250 cots. In 1875 there was 1 nurse; in 1918 there were 100 nurses. In 1875 the receipts were \$2,258.03, and expenditure \$2,256.03; in 1918 the receipts were \$174,972.26, and expenditure \$225,724.13.

The Hospital closed its first year with a balance of two dollars in the bank. The war-year of 1918 added almost \$100,000 to its burden of debt.

In 43 years the Hospital has treated 37,941 in-patients and 350,608 out-patients; a grand total of 388,549.

Of the in-patients, 29,233 were from Toronto and 8,708 from other parts of the Province. 18,093, or 50 per cent., were cured; another 10,782, or 21 per cent., were improved.

A GLANCE AT THE PAST 12 MONTHS' WORK.

The work last year passed the record. The number of patients was greater than in any previous year, and the work in every department increased.

From the 1st of October, 1917, to the 30th of September, 1918, the total number of patients admitted was 5,048, an increase of 1,308 over 1917. Of these, 2,272 were girls and 2,776 boys. 1,901 were medical cases and 3,147 surgical.

The largest number of in-patients treated in any one day was 231; the smallest, 130; and the daily average, 192.

Of the total 5,048 in-patients, 759 were admitted from 266 places outside of Toronto. In 1917 there were 646 from 254 places.

The total number of out-patient attendances was 39,583. Of these 19,420 were girls, and 20,163 boys.

The largest number of out-patients treated in any one day was 240; the smallest 72; and the daily average 130.

The total number of surgical operations performed in 1918 was 4,131, an increase of 597 over the previous year; in the in-patient department 3,372, and in the out-patient 759, where also many minor operations were performed which are not recorded.

RESULTS OF TREATMENT.

Of the 5,048 patients treated during the year, 3,211, or 64 per cent., were discharged cured; 1,082, or 21 per cent., improved; 194, or 4 per cent., unimproved; 359, or 7 per cent., died; and 202, or 4 per cent., were in the Hospital under treatment at the end of the Hospital year.

It is worthy of note that while our death rate for the year was 359, of whom: 135 were girls, and 224 boys; 61 were in the Hospital less than 2 hours; 63 less than 1 day; 101 less than 7 days; 59 less than 2 weeks, and 45 less than 1 month, so that 329, or 92 per cent., were practically beyond hope when admitted.

A FORTNIGHT IS AVERAGE STAY.

The total number of days' treatment for 1918 for the 5,048 in-patients was 70,153. The average days' stay of each patient was 14. The previous year the total number of days of Hospital care was 75,684; the average 20½.

This average days' stay is found by dividing the total number of in-patients, 5,048, into the total days' stay, 70,153, of all patients in the Hospital for the year.

SCHOOL WORK CONTINUES IN THE HOSPITAL.

The Toronto Board of Education maintains a teacher at the Hospital; and the school proves a great factor in the physical as well as the mental development of the little patients.

Last year 428 patients, 251 boys, and 177 girls, received instruction, or a daily average of 38.

DEPARTMENTS OF BACTERIOLOGY AND PATHOLOGY.

During the year, examinations have been made by chemical, bacteriological, pathological and biological research, and the results have been of great assistance in the diagnosis and treatment of disease.

The work for both in and out-patients shows many blood examinations, throat cultures, urinalyses, milk tests, lumbar punctures, autopsies, and typhoid tests.

A special Chemical Laboratory has been equipped for diagnostic study in the diseases of children from the standpoint of nutrition; and through the generosity of Mrs. W. C. Teagle, of this city, a fund has been established to defray the expenses of this Laboratory.

THE OUT-PATIENT DEPARTMENT AND FREE DISPENSARY.

A busy year—The total attendance during 1918 was 39,583, of whom 19,420 were girls, and 20,163 boys. The largest number of out-patients treated in any one day was 240; the smallest number 72; the daily average 130.

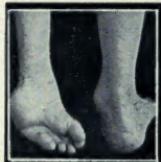

Of these 39,583 out-patient attendances, 11,926 were medical and 12,235 surgical; 3,584 eye; 7,747 ear, nose and throat; 1,541 orthopedic; 1,662 tubercular cases; 96 attended the whooping-cough clinic, and 792 the well babies' clinic.

In the Dispensary there were 32,028 prescriptions filled for both in-patients and out-patients. Besides the above there are the daily orders for solutions, chemicals and ward requisites.

A comparison—of every five years for the past 15 years—shows the following enormous increases:—In 1903, 4,068 out-patients; in 1908, 10,663 out-patients; in 1913, 25,507 out-patients; in 1918, 39,583 out-patients.

The large yearly additions for the past five years are principally due to medical inspection in the city, medical supervision in the Public Schools, and the large increase in Toronto's population.

You Can Give a Spare Dollar and Save a Precious Life From Deformity—Give It, and Somebody's Darling Will Grow Up to Bless You for Your Goodness

BEFORE

AFTER

The Orthopedic Department

In 1918 of the 5,048 in-patients, 421 were treated for deformities. In forty-three years there have been 1,620 cases of club feet, bow-legs and knock-knees treated; and 1,478 have been discharged with perfect correction. Last year of the 39,583 out-patient attendances 1,541 were orthopedic—deformed, crooked and lame little children.

WHERE SPLINTS AND APPLIANCES ARE MADE.

A Busy Year in the Workshop

685 appliances were made—club feet, bow-leg, hip splints; spinal, ankle braces; flat foot plates; arm supports; leather, plaster, aluminum jackets. Orthopedic shoes have been made for the past ten months—measurements taken, patterns cut, uppers made and shoes soled.

BEFORE

AFTER

THE TRAINING SCHOOL FOR NURSES.

There are at present in training in the School 100 pupil nurses, including 27 probationers, 24 first year, 31 second year, and 18 third year nurses.

During the past year 18 nurses were graduated, making a total of 386 graduates since the Training School was established in 1886.

Since the outbreak of war, 43 graduates of the Hospital have gone "Over-seas," for military service.

Very interesting and thorough courses of lectures and lessons were given to the pupils of the School in 1918, which included:—A course by the physicians and surgeons for probationers, junior, intermediate and senior nurses; lectures weekly by the Superintendent and her assistant; by the Hospital pharmacist; by the teacher of the Preliminary Course; lectures at Toronto University on Social Service Work; lessons by the masseuse; a six weeks' course in dietetics and invalid cookery; two weeks' training in the preparation of baby feedings in the Milk Laboratory; a course in gymnastic exercises and physical instruction, also lessons in the swimming pool at the Nurses' Residence.

Everything has been done by the management to surround the students of our School of Nursing with healthful and sanitary conditions of life.

The Nurses' Residence, which was erected, furnished and presented to the Hospital in 1907, with its perfect equipment and modern adjuncts, provides much comfort and happiness to the nurses and staff of the Training School Faculty.

THE ORTHOPEDIC DEPARTMENT AND APPLIANCE SHOP.

The Hospital's field of service to the crippled and deformed children of this city and province is constantly widening. The calls upon it are becoming more numerous and more insistent as each year passes and as knowledge of our work spreads.

Of last year's 5,048 in-patients 421 were treated for deformities, as follows:—46 club feet; 11 bow-legs; 9 knock-knees; 6 wry neck; 21 Pott's disease; 5 curvature of the spine; 173 dislocations and fractures; 43 tubercular disease of hip, leg, knee, ankle, arm, elbow and wrist; 96 infantile paralysis, and 11 miscellaneous. Of the 39,583 out-patient attendances, 1,541 were orthopedic cases.

The total number of appliances made in the Orthopedic Shop, for in-patients, out-patients and private patients, was 685 last year; 15 spinal braces; 28 hip splints; 70 knee and ankle braces; 60 club feet splints; 25 leg braces; 20 arm braces; 100 flat foot plates; 25 bow-leg splints; 50 night splints; 30 Goldthwaite's supports; 22 plaster and aluminum jackets and shoulder supports; 30 Bradford frames; 60 bed splints, and 150 miscellaneous.

The shop is maintained for the purpose of affording patients the means of obtaining, at cost, the splints and appliances necessary to complete their treatment.

The Hospital has been making its orthopedic shoes in the leather room of the shop for the past ten months. The shoes are made entirely from the last—patterns cut, uppers made and shoes soled.

THE X-RAY DEPARTMENT.

The records for 1918 show the variety of work done for in-patients, out-patients and private patients:—3,900 skiagraphs made; 225 X-Ray treatments for different diseases; 800 fluoroscopic examinations, and 250 fractures reduced under the Rays.

The following numbers of radiographs show its usefulness for diagnosis in both surgical and medical cases:—700 dislocations and fractures; 170 hip cases; 350 bone diseases; 880 chest and lung conditions; 125 coins, brooches and pins located, and 520 miscellaneous, including dental negatives.

THE TRAINING SCHOOL FOR NURSES

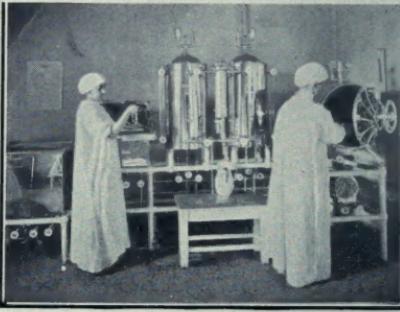

LESSON IN NURSING.

IN THE DIET KITCHEN.

MEASURING FLUIDS.

KILLING GERMS.

LEAVING THE RESIDENCE EARLY IN THE A.M. FOR HOSPITAL DUTY

THE DENTAL SERVICE.

Keeping abreast with science, the Trustees established a Dental Clinic in 1912, and after a few months of the service the improvement in the physical condition of the patients was much in evidence.

Obscure cause of many diseases which long baffled the medical faculty has of late years been traced to faulty teeth, and the Dental Department has become one of the most valuable in the Hospital in locating the trouble.

The records of the past year show increased work:—1,391 patients examined; 207 treatments; 1,120 extractions; 466 fillings, and 630 miscellaneous.

INFANT WELFARE AND BABY MEDICAL WARD.

The year just closed has been one of the most successful in the history of this Service.

The records show a daily average of 75; or a total of 1,542 babies admitted, besides thousands of infants who attended the out-patient clinics.

One of the most striking features of the year's report is the low infant mortality. The figures of 1918 show a reduction of 23 per cent. compared with the previous year.

This Department is managed with the greatest care and along most modern and scientific lines. The hygiene of the nurseries and cubicles is as nearly perfect as possible, and everything is done for the comfort of the little ones.

The glass cubicles for individual patients act as safeguards against the spread of any contagious disease.

The majority of the babies being malnutrition cases, the problem of feeding is a serious one. The supply of pure milk and of good feedings ensured by the Pasteurization Department of the Hospital has proved of great benefit.

The Well Baby Clinics, under special physicians and nurses, where mothers are taught the best methods of infant feeding, bathing and clothing, have been productive of the greatest good. Last year there were 792 attendances at these clinics.

MASSAGE DEPARTMENT AND GYMNASIUM WORK.

During the past year 123 patients received massage, 55 in-patients and 68 out-patients; some almost daily; making a total number of 2,986 treatments.

The Masseuse also gives two lessons weekly to all senior nurses in the Training School, the instruction given being specially adapted to the demands of general nursing.

The gymnasium in the new wing, under the supervision of an experienced instructress, is of great value to the orthopedic department, especially in the treatment of curvature of the spine, chest and shoulder deformities, wry neck and infantile paralysis.

Last year 2,688 corrective treatments were given to in-patients, out-patients and private patients.

A course of instruction, including Swedish movements, apparatus work and swimming lessons, is given to the pupils of the Training School during their preliminary term; also exercises and corrections to junior and senior nurses.

THE PURE MILK DEPARTMENT.

Pure milk occupies first place in the proper feeding of young children. The Hospital's plant pasteurizes 110 gallons of milk daily, and distributes 1,000 bottles of special baby feedings, as well as 700 bottles of germless milk and cream.

Pasteurization means heating the milk to a temperature of 145° F, keeping it at that temperature for 30 minutes, and then cooling it. This process kills germs without in any way impairing the nutritive qualities of the milk.

Recently a two weeks' course in the Milk Laboratory in the preparation of baby feedings has been added to the nurses' curriculum during their probationary term.

The Baby Ward Service and Infant Welfare Work

A Marvellous Record for 1918: 1,542 babies admitted; a daily average of 75; youngest baby, 3 hours old.

BUILDING BETTER BABIES

SOME FAMILIAR FACES

PLEASE RETURN THE FOLLOWING WITH YOUR DONATION, STATING AMOUNT, NAME AND ADDRESS.

67 College Street, Toronto.

Dear Sir:—

Enclosed please find the sum of \$..... to assist in the work of your Charity.

Name

Address

THE LAUNDRY AND POWER PLANT.

The laundry of the Hospital is sanitarily done in our own plant, and the washing list totalled over 2,000,000 pieces last year. One week's record shows 43,500 pieces. For patients and cots, 36,000; staff, nurses and employees, 5,000; residence and Hospital linen, 2,500.

Light, heat and power are provided by a central station; while the refrigerating plant supplies economically the equivalent of 12 tons of ice per day.

BEQUESTS IN THE YEAR.

The Trustees acknowledge, with thanks bequests from the estates of:— A. Wilson, Toronto, \$500; Pte. R. MacCrimmon, "Somewhere in France," \$182.04; H. James, Brantford, \$250; Wm. Houston, Toronto, \$25; E. Houston, Toronto, \$25; G. H. Hees, Toronto, \$250; Rev. Dr. G. H. Cornish, Toronto, \$100; P. Doherty, Collingwood, \$500; M. E. McClellan, Brantford, \$500; Pte. T. Hilyer, "Somewhere," \$137; J. Essen, Sarnia, \$500; Sanderson Pearcy, Toronto, \$500; S. W. McClung, Sonya, \$131.11; Jermyn and J. Edgeworth, Toronto, \$2,940.87; D. Clark, Toronto, \$100; E. Charlton, Brantford, \$200; R. R. Newborn, New Toronto, \$19.40; W. Millichamp, Toronto, \$100; J. I. Carter, Sarnia, \$28,063.13; I. J. Cooper, Toronto, \$200; O. Wells, Tupperville, \$200; Miss M. J. Innis, Otterville, \$100; Mrs. J. Matthew, Gananoque, \$100; Miss E. C. Read, Peterboro, \$500; Miss M. Cairns, Pt. Elgin, \$460.57; G. Porter, Toronto, \$250; S. Sugarman, Toronto, \$250; S. May, Toronto, \$5,000; M. Clancy, Toronto, \$14.45; W. Warren, Montreal, \$255; L. J. Cosgrave, Toronto, \$333.33; T. H. Lee, Toronto, \$100; B. Baldwin, Iroquois, \$100; D. Geham, New Dundee, \$100; H. Woods, Aylmer, \$76.25.

NEW COTS DURING THE YEAR.

The following cots have, by the payment of \$2,000, been named in perpetuity in the Hospital in College street in 1918:

The George R. and Ralph Cockburn Cot, by bequest of the late Mrs. Mary E. Cockburn, Toronto; The Edward Drummond Fraser Cot, by Mrs. Edward Drummond Fraser, Toronto; The Frederick Charles Heyd Cot, by Mr. Heyd, Brantford, Ont.; The Thomas Ferris Jenkins Cot, by Mr. Thomas Jenkins, Toronto; The Howard P. Primrose Memorial Cot, by Dr. and Mrs. A. Primrose, Toronto; The W. A. Orr and Wife Cot, by bequest of the late Mrs. Annie L. Orr, Toronto; The Anthony W. Croft Cot, by bequest of the late Mrs. Eliza Ellen Croft, Toronto; The Walter J. Barr Cot, by Mr. Walter J. Barr, Toronto (To Commemorate Fiftieth Business Anniversary); "In Memory of Samuel Trees" Cot, by his son, Lieut. C. F. Trees, Toronto.

The following cot, by the payment of \$100 per year, was named to be maintained annually in the Hospital in College street:

The Sons of England Founders' Memorial Cot (for 10 years), by Supreme Lodge, S.O.E., Toronto.

The following cot, by the payment of \$500, has been named in perpetuity at The Lakeside Home, Toronto Island:

In Memory of John and Eunice Mooney Cot, by Miss Mary A. Mooney, Inverness, Que.

The following cots, by a payment of \$25 a year, were named to be maintained annually at The Lakeside Home, Toronto Island:

The St. Paul's Presbyterian Y. P. S. Cot, by St. Paul's Presbyterian Y. P. S., Toronto; The Capt. W. H. Featherstonhaugh Cot, by Miss Pansy Featherstonhaugh, Toronto; The Beams of Love Cot, by Miss N. Thurston's Class, Dunsford Methodist S. S.; The Blue Bird Cot, by One of the Girls' S. S. Classes, Trinity Church, Simcoe.

NOTE FROM THE LAST INSPECTION OF THE GRAND JURY.

"The building is a model of cleanliness and convenience, and we were particularly impressed with the care taken in the preparation of food. The pasteurization of the milk was favorably commented on by members of the Jury."

WHAT EACH PATIENT COSTS EACH DAY.

Last year the cost per patient per day was \$3.21 $\frac{1}{4}$, or \$45.04 for the 14 days' stay of each patient.

The total in-patients, 5,048, were given 70,153 days' treatment at a total cost of \$225,724.13.

In 1917 the cost per patient per day was \$2.51, or \$50.83 for the 20 $\frac{1}{4}$ days' stay of each patient.

A NOTE TO THE MUNICIPALITIES.

Many people who reside outside of Toronto, and some perhaps in the city, are under the impression because the City of Toronto and each municipality in Ontario, which send in patients to the Hospital, pay \$1.25 per head per day, as directed by the Act of the Provincial Legislature, that this amount defrays the total cost of treatment of each patient.

This is far from being the case—the grants do not pay even half the cost. It takes \$3.21 $\frac{1}{4}$ each day to maintain a child in the Hospital.

The official grants total \$1.55 per day. The remaining \$1.66 $\frac{3}{4}$ per day for each child can only come from the individual friends of the Hospital.

As its work grows the calls increase. This year either voluntary contributions must make good the \$90,000 spent on these children which the grants and other receipts do not cover, or else the Hospital must record its failure in the amount of its overdraft.

THE QUESTION OF FINANCE.

Hospital finances, like those of a private residence, fall into two divisions. The building must be paid for and the household expenses must be met. On September 30th, 1917, the **Building Debt** of the Hospital for Sick Children stood at \$140,726. A last cheque drawn by John Ross Robertson, just before his death, completely, and for the first time in its history, freed the Hospital of that debt.

The maintenance charges—the housekeeping expenses, so to speak—keep mounting up, and this year, despite the utmost thriftiness, the Hospital has been forced by the higher price of supplies and the increased number of patients into unusually heavy expenditure. The number of patients taken care of in the wards is 1,308 more than last year, while the daily cost of treatment in four years has increased 37 per cent. The circumstances are exceptional, and therefore the appeal to the purses and pocketbooks of the public is this year more urgent than ever before.

The Hospital now carries on maintenance account an **overdraft** of almost \$100,000. If it passes that sum, it cannot escape issuing interest-bearing debentures. The trustees have been granted, but are loth to exercise, power to make an issue of bonds, pledging as security the Hospital property and building which was so recently and so nobly cleared of debt.

WILL THE FRIENDS OF THE HOSPITAL ALLOW ITS WORK TO BE WEIGHTED WITH A MORTGAGE?

SURELY NOT!

Send your answer to the Secretary-Treasurer—and make it emphatic.

KIDDIES WILL GET INTO TROUBLE AT HOME, AT SCHOOL, ON STREET AND AT PLAY

Accidents---305 In-Patients,

FELL ON ROAD.

TWO BROKEN ARMS.

GIVING FIRST AID.

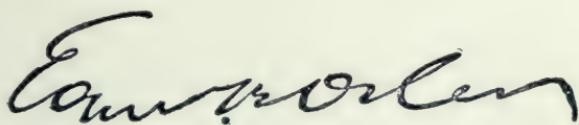

THE ROBERTSON BEQUEST.

The will of John Ross Robertson was a fitting postscript to a long life of philanthropy. Practically everything of which he died possessed, passes in time, to the Hospital. Certain annuities are paid during the lifetime of his immediate family, and the remaining income, from his newspaper, is being re-invested by his executors for the ultimate benefit of the Hospital. Till the appointed time for turning over their whole trust to this institution, his executors are not empowered to contribute towards its maintenance a greater sum than \$10,000 in any one year.

Mr. Robertson's dream was of a great Hospital, able to meet without embarrassment every demand the sick children of his native province may put upon it. The present maintenance, he firmly believed, might safely be entrusted to those hundreds of loyal friends who have splendidly stood by the Hospital during its forty-three years of public service.

The Trustees of the Hospital for Sick Children acknowledge with profound gratitude this most princely benefaction to the public that is chronicled in the history of Canada. And they voice their sure belief that no more appropriate tribute could be paid to its donor than the maintenance in full vigor and strength of the Charity he loved, against the time when it enters into its inheritance.

For the Trust—

Chairman

SIR E. B. OSLER,
STRACHAN JOHNSTON,
ROBERT F. SCOTT,
IRVING E. ROBERTSON,

AUDITORS' REPORT, HOSPITAL FOR SICK CHILDREN.

To the Chairman of the Trust:—Dear Sir,—We beg to certify that the Receipts and Disbursements of the Hospital for Sick Children have been carefully audited with the vouchers and bank account throughout the year ending Sept. 30th, 1918, and the accompanying statements of Income and Expenditure and Assets and Liabilities, bearing our signature, are a true and correct account of the affairs of the Hospital to that date. The books and work of the office are well looked after, and all desired information has been freely given.

Toronto, Oct. 10, 1918.

Day in and Day Out the Sorrow of Mothers and the Suffering of Children Appeal to the Hospital With an Eloquence That the Hospital Faintly Echoes in Its Christmas Appeal to You

Among the Marvels of Modern Surgery

BEFORE

AFTER

From 1875 to 1918 there have been 475 cases of Hare-lip admitted to the Hospital ; of whom 377 were discharged corrected—perfect results.

The correction is so complete, and so changes the facial expression in babies, that mothers hardly recognize their own little ones.

BEFORE

AFTER

AN EVERYDAY SCENE IN ONE OF THE WARDS

MANY A LITTLE LIFE MUST BE SHIPWRECKED IN SIGHT OF SHORE, IF YOUR MONEY DOES NOT MAN THE LIFEBOAT OF THE HOSPITAL'S MERCY

Remember the Sick Children in Your Will

Read the names of those who have memorial cots. \$2,000 names a cot in perpetuity. If you cannot find a cot, leave something—if only a hundred dollars—to help to nurse sick little ones. The form to use is:—"I Give, Devise and Bequeath to The Hospital for Sick Children, Toronto," the sum of \$.....

THE INCORPORATED NAME IS

"The Hospital for Sick Children, Toronto."

THE HOSPITAL FOR SICK CHILDREN, TORONTO.

MEDICAL REPORT.

Analysis of Diseases and Results—In-patients treated Oct. 1, 1917, to Sept. 30, 1918.

Disease—	Cured.	Imp'v'd.	Unimproved.	Died.	Disease—	Cured.	Imp'v'd.	Unimproved.	Died.
Congenital Malformation of—					Convulsions				
Brain and meninges					Epilepsy	1	1	3	3
Face	1	5	1	1	Multiple neuritis				
Extremities	1	1	1	1	Paralysis, post diphtheritic	1	1	1	1
Circulatory system (heart)	1	7	1	1	Muscular dystrophy				1
Digestive System—					Hydrocephalus			7	1
Ulcerative stomatitis	12	6	1	1	Masturbation			1	1
Thrush	3	1	1	1	Chorea	18	18	1	1
Aural sepsis					Idiocy		1	15	1
Gastro-intestinal indigestion	24	5	1	1	Dementia			1	1
Rumination	3	1	1	1	Genito Urinary System—				
Hypertrophic pyloric stenosis	8	4	3	3	Cystitis, acute	1			
Colitis, acute	2	1	1	1	Incontinence of urine	4			
Intestinal intoxication	7	6	1	1	Fyelitis, acute	4	5	2	2
Intussusception	2	1	1	1	Nephritis, acute	7	5	2	1
Chronic appendicitis	1	1	1	1	Uraemia	1	1	1	1
Fermentative diarrhoea	103	82	6	44	Vaginitis	1	3	2	2
Constipation	2	4	1	1	Diseases of New-Born—				
Peritonitis, acute					Haemorrhagic disease	1			3
Prolapse of rectum					Prematurity	4	6	3	18
Exudative diathesis	15	4	2	1	Pemphigus neonatorum	1			
Acidosis	3	3	1	16	Ophthalmia neonatorum	12	6		
Diabetes mellitus					Umbilical infection	3	1		1
Metabolism oedema			1	2	Eye, Ear, Nose and Throat—				
Rickets	16	43	9	1	Conjunctivitis	14	9	1	1
Scurvy	1	1	1	1	Dacrocystitis	1			
Tetany	13	6	1	2	Keratitis	1	10		1
Marasmus	30	24	10	48	Strabismus	3	15		
Infant feeding regulation	117	72	3	12	Cataract	1	18		
Infectious Diseases—					Rupture of cornea	2	9		
Tuberculosis, glands, lungs			1	1	Ulcer of cornea	1	3		
Tuberculosis, pleura			3	1	Foreign body in eye	2	1		
Tuberculosis, peritoneum			3	1	Iritis	1	9	1	
Tuberculosis, of meninges			6	19	Peritonissilar abscess	1			
Tuberculosis, acute general miliary			3	13	Retro-pharyngeal abscess	3			
Tuberculosis of spine			1	1	Tonsillitis, acute	9	2		
Tuberculosis, dactylitis				2	Pharyngitis	10			
Typhoid fever	11				Laryngitis, acute	1			
Acute rheumatic fever	17	8	1	1	Rhinitis	2	1		
Whooping cough	4	7	5	1	Otitis media	77	19	3	1
Measles	7	1	1	7	Oesophageal stricture				
Purulent parotitis					Skin Diseases—				
Septicaemia	1		1	3	Furunculosis	15	7		
Pyæmia			1	2	Eczema	9	6	1	
Acute infective jaundice	1		1	2	Intertrigo	2	1		
Chronic arthritis			1	1	Impetigo, contagiosa	5			
Syphillis, congenital	2	17	3	12	Impetigo, bullous	1	3	1	
Erysipelas	7		1	3	Onychia	1			
Chicken-pox	6				Scabies	3	3	1	
Diphtheria			1	16	Miscellaneous—				
Scarlet fever				2	Adenitis	11	3	1	
Cerebro-spinal meningitis	6				Lymphangitis, chronic				
Cellulitis	1	1	1	1	Femur fracture				
Asthma			1	1	Osteogenesis imperfecta				
Bronchitis, acute	57	27	1	1	Secondary anaemia	1	19	2	1
Bronchitis, chronic	36	13	22	1	Von Jaksch's anaemia				
Pneumonia, lobar	90	9	1	8	Lymphatic leukaemia, acute	1			
Pneumonia, broncho	43	5	3	55	Haemophilia	2			
Fibrinous pleurisy, acute	9	6	1	55	Henoch's purpura				
Abscess of lung			1	1	Haemorrhagic purpura	1			
Empyema	1	12	9	1	Tumors	1	2	4	1
Pneumothorax		1	1	1	Poisonings	10	1		1
Circulatory System—					Intestinal parasites		2		
Endocarditis, acute	1	11	1	4	Tinea Solium		1		
Endocarditis, chronic		15	2	4	Undiagnosed	7	3	2	1
Pericarditis, acute	3		1	1					
Myocarditis, chronic	2								
Cardiac valvular disease									
Nervous System—									
Cephalhematoma			1	1	Summary, Year 1918—				
Hemiplegia		1			Cured				
Cerebral diplegia			2	1	Improved				
Haemorrhage into cerebrum			4	1	Unimproved				
Meningitis, pneumococcic			5	5	Deaths				

Above results show that numerous patients were treated for more than one disease.

SURGICAL REPORT

Disease	Cured	Imp'vd	Unimproved	Died	Disease	Cured	Imp'vd	Unimproved	Died
Alimentary System—					Nervous System—				
Abdominal wall infection	1	2			Cerebral haemorrhage				1
Abdominal tumor	1	1	1		Encephalitis	1	1		1
Intestine infection	2	4			Meningocele	1	2	3	1
Intestinal obstruction	1	1	1		Spina bifida			3	1
Peritonitis	3		1	3	Jacksonian epilepsy			1	
Peritonitis (T.B.)		3			Infantile paralysis			4	6
Acute appendicitis	46	8		4	Spastic paraplegia, mono-				
Ascaris lumbricoid			1		plegia			15	4
Intussusception	7	1		2	Cerebral diplegia				1
Pyloric stenosis	5	2	1	2	Musculo-spiral paraparesis			1	
Septicaemia, toxæmia, py-					Diseases of Bone—				
aemia	2		1	3	Fractures	65	74	3	8
Impenetrable anus	1	3		1	Ulcers of fibula (T.B.)			1	
Umbilical infection, abscess		4	1		Tumor of scapula			1	
Prolapse of rectum, ani.		3	5		Sarcoma of tibia & sacrum			1	
Hernia	80	12	4		Osteomyelitis	6	29	3	1
Foreign body in abdomen	2	2	1		Tubercular disease of verte-				
					brae			19	2
Genito Urinary System—					Dislocation of pelvis			1	
Acute nephritis		1			Exostosis of rib			1	
Rupture of kidney	1				Deformed tibia			2	
Phimosis, paraphimosis	10	6			Diseases of Joints—				
Hypopadias			1	2	Inflammation of joints	4	19		1
Undescended testicle		1			Tuberculosis of ankle		5		1
Recto vaginal fistula	1				Dislocation of hip (cong.)		17		4
Haematoma of vulva	1				Tuberculosis of hip		21		3
Stenosis of urethra	1				Tuberculosis of knee		8		
Hydrocele	3	2			Tuberculosis of tarsus		1		
					Foreign body (knee)		1		
Glandular System—					Deformities—				
Cervical adenitis	6	10	1	1	Deformity of foot from				
Cervical adenitis (T.B.)	4	7	1		birth (club feet)			46	
Inflammation femoral					Bow-legs	4	4	3	
glands	3	1			Knock-knees	1	7	1	
Inflammation inguinal					Flat foot		5		
glands					Deformity of foot (infantile			82	4
Sarcoma, mesenteric tissues					paralysis)				
Status lymphaticus					Curvature of spine		4	1	
					Injury to spine		1		
Regional—					Leg flexion	1			
Empyema	15	16	2	9	Ear, Nose and Throat—				
Gunshot wound (chest wall)		22			Otitis media	8	22		
Pneumonia, lobar, broncho-		3		1	Mastoiditis	24	32	4	
Pneumo thorax, pleurisy	1	2		2	Foreign body in bronchus	2			
General abscess	9	7			Stricture of larynx		6		
Chronic arthritis		2	1		Papilloma of vocal cord		1		
Shock following injury	3	7			Foreign body in oesophagus	10	1		
Cellulitis of face	1	2			Stricture of oesophagus	2	6		
Wounds of face	3	2			Chronic pharyngitis	1	2	1	
Hare-lip	1	11	4		Nose, deformity, fracture		1		
Hare-lip and cleft palate	1	10	2		Foreign body in nose		1		
Cleft palate	3	18	16		Hypertrophic rhinitis	3	2		
Ranula of tongue		5	1		Deflected septum	53	45	3	
Torticollis		5	1		Tonsillitis	4	1		
Strained ligaments of neck		2			Retro-pharyngeal abscess	4			
Naevus		6	4	2	Tonsils and adenoids	2157	24		
Superficial wound	14	24	5		Weakness following removal				
Infection of hand	2	1			of tonsils	14			
Dactylitis (T.B.)		2	1		Antrum of highmore (pus)	1			
Wound of the arm		2	3		Cervical adenitis	2	4		
Cellulitis of arm		3	1		Perforated palate	1			
Injury to leg	2	5	1		Menière's disease			1	
Injury to foot	1	6			Aural polypus	3			
Cellulitis of foot and toe		3							
Inguinal abscess, haematooma	1	3							
Rupture of spleen	1								
Contusions of back		2							
Burn	14	18		13					
Contracture following burn		6	1						
Erysipelas		3	1	1					
Infectious diseases	34	12	31						
Undiagnosed	4	3	1	1					

Above results show that numerous patients were operated on for more than one disease.

SURGICAL OPERATIONS

Table Showing Nature of Surgical Operations from Oct. 1st, 1917, to Sept. 30th, 1918.

Operations.	Total	Operations	Total
Removal of glands in neck	12	Fracture of humerus (open reduction)	9
Amputation of fingers	1	Fracture of radius (open reduction)	1
Amputation of foot	1	Fracture of ulna (reduction)	3
Amputation of leg	4	Fracture of radius and ulna (reduction)	6
Fixation of joint	10	Fracture of radius and ulna (open reduction)	4
Circumcision	14	Fracture of tibia and fibula (reduction)	14
Hypopspadias	1	Fracture of tibia (reduction)	15
Anal fistula	1	Fasciotomy	24
Undescended testicle	1	Tenotomy	27
Imperforate anus	4	Tendon fixation	13
Curettement of bone	9	Tendon transplantation	8
Decompression (trephining)	11	Tendon lengthening	36
Urethra (plastic operation)	2	Sequestrectomy	21
Excision of thigh	6	Cleft palate (repair)	31
Excision of astragalus	8	Hare-lip (repair)	23
Cyst (removal)	4	Hare-lip and cleft palate (repair)	5
Tumor (removal)	12	General wounds (repair)	18
Tooth (removal)	4	Resection of rib	44
Naevus (removal)	4	Syphon drainage	1
Fixation of scapula to ribs	1	Skin graft	9
Exostosis of rib (removal)	1	Transfusion	59
Meningocele (removal)	5	Eye, Ear, Nose and Throat—	
Foreign body (removal)	3	Enucleation	8
Incision of abscess	52	Needling of cataract	19
Incision of abscess (T.B.)	5	Resection and tenotomy of rectus	19
Appendicitis	56	Iridectomy	9
Colostomy	1	Skin graft	4
Intussusception	13	Advancement of externus rectus tendon	3
Intestinal obstruction	1	Cauterization	2
Pyloric stenosis	10	Plastic operation	2
Splenectomy	1	Cyst (removal)	1
Peritonitis	2	Foreign body (removal)	2
Perineorrhaphy	1	Suturing torn lids	2
Hydrocele	1	Submucous resection of nasal septum	98
Femoral hernia	1	Mastoid	51
Inguinal hernia (radical cure)	87	Adenoids	33
Umbilical hernia	1	Tonsils and adenoids	2150
Manipulation of feet	43	Trimming of turbinates	9
Osteotomy of femur	10	Incision of abscess (post auricular)	12
Osteotomy of tibia	22	Distilation, stricture of oesophagus	5
Osteotomy of humerus	1	Foreign body in oesophagus (removal)	4
Albee spinal bone graft	9	Plastic operation on pharynx	2
Plaster jackets	10	Foreign body in bronchus (removal)	2
Torticollis	1	Bronchoscopic examination	18
Operation for contracture following burn	3	Tracheotomy	2
Removal of ant. superior spine of ilium	1	Nasal spur (resection)	1
Fracture of jaw (wiring)	1	Retro-pharyngeal abscess (incision)	3
Fracture of femur (reduction)	29	Papilloma of vocal cord (removal)	1
Fracture of femur (open reduction)	6	Polypus (removal)	3
Congenital hip (reduction)	12	Drainage of antrum	1
Dislocation hip (pathological)	1	Paracentesis	3
Dislocation pelvic bones (reduction)	1	Intubation	2
Separated epiphysis (reduction)	2		
Fracture of femur (bone plating)	4		
Fracture of humerus (reduction)	23	Total	3372

SURGICAL OPERATIONS IN OUT-PATIENT DEPARTMENT

Removal of tonsils and adenoids	52	Paracentesis	80
Removal of foreign body from foot, arm	12	Reduction of fracture, forearm	92
Removal of foreign body from nose	14	Reduction of fracture, nose	1
Removal of thumb	1	Reduction of fracture, leg	11
Removal of growth from gum	3	Wounds sutured	47
Removal of teeth	1	Manipulation (club feet)	30
Incising abscesses	168	Incising tendons	12
Incising infected arm, hand	27	Circumcisions	176
Incising infected foot	4		
Incising infected glands	13	Total Out-Patients	759
Electrolysis, naevus	4	Total In-Patients	3372
Excision of ganglion	4		
Excision of tumor	1	Total operations for year	4131
Excision of cyst	6		

NUMBER OF PATIENTS RECEIVED FROM CITY AND COUNTRY

Since the year 1875 to the year ending September 30th, 1918.

AND RESULTS OF TREATMENT.

				Tubercular Cases—New cases	395
				Repeats	1,267
				Cases treated	1,662
				Whooping Cough Cases	96
				Well Babies' Clinic	792
				Total	39,583

IF YOUR MONEY FAILS THE HOSPITAL, THE HOSPITAL'S MERCY MUST FAIL THE CHILDREN

THE Hospital's need of **YOUR HELP** is measured by the **CHILDREN'S NEED** of the **HOSPITAL'S HELP**.

Only as you, friends of little children, open your pockets to **APPEALS FOR MONEY** can the Hospital open its doors to **APPEALS FOR MERCY**.

The J. Ross Robertson bequests to the Hospital for Sick Children are **ULTIMATE**, and designed to create the financial foundations of a great system of hospital care to serve this Province for many generations to come.

The needs of the little children are **IMMEDIATE**.

The Hospital for Sick Children is more truly and absolutely in need of every cent, every dollar, that can be put into contributions at this moment than at any other hour in the Hospital's history.

In this great Christmas Season of Peace and Good-Will to Men, sick little children are appealing to **YOU**.
